## Education

### B.E Electronics and Communication

Panjab University

2018 – 2022 | Chandigarh

CGPA-8.56

## Skills

Javascript   ReactJS   Nodejs   Redux  
Nextjs   Tailwind   Socket io   MongoDB  
Agile   CSS   Firebase   sequelize

## Projects

### A-Board /Tree Drive

Nodejs ,Reactjs ,socket-io,MongoDB,cron jobs

- **POS-based food ordering software** that enables restaurants to manage in-house orders while also integrating with an online ordering platform. Customers can place orders online, which are automatically synced to the restaurant's POS system for seamless order management.
- Integrated real-time order synchronization between the online platform and the POS system using socket-io ensuring seamless restaurant operations.
- Designed and implemented
